

Wai Yan Linn

Junior Java Developer

✉ waiyanlin2015015@gmail.com ☎ +959-778206157 🌐 <https://github.com/WaiYan-Linn>

A motivated final-year student with a strong enthusiasm for technology and over 3 years of self-directed Java development experience. A diligent individual with a proven track record of developing independent personal projects, eager to gain valuable workplace experience. Currently completing my degree, I actively pursue emerging technologies to stay current and expand my technical skills.

Experience

Freelance Java Developer

July 2024 – September 2024

- Developed a Time-Off Management System using Spring Boot, Thymeleaf, JPA, and MySQL.
- Implemented leave requests, approvals, and salary calculations based on leave balances with efficient validations.
- Managed user roles, allowing admin to create employee accounts and assign Head of Department (HOD) roles.
- Enabled secure user authentication with password management.

Skill Highlights

Coding test challenges

August 2023

- Participated in the interview process for Dinger Company, successfully completed a coding test focused on API development, but was unable to move forward due to scheduling constraints.

Lottery Website Development

August 2020

- Developed a lottery website using Angular and Firebase, allowing customers to view products and submit their contact information for purchased items.
- Implemented a system to manage user submissions via Cloud Firestore, ensuring data organization and accessibility.
- Set up a cash-on-delivery billing method to facilitate transactions.
- Hosted the website on Netlify for easy accessibility.
- [Live Demo](https://billionaires-zone.netlify.app/) - <https://billionaires-zone.netlify.app/>

Education

Bachelor of Computer Science

University of Yangon

December 2018 - present

- Majoring in computer science
- Emphasize on theories and fundamental knowledge
- Participating in teamwork projects
- Delivered independent and group presentations

Expected graduation : September 2025

- Year 1 GPA: 4.58 /5.0 (December 2018 - September 2019)
- Year 2 GPA: 4.40/5.0 (December 2019 - September 2023)
- Year 3 GPA: Pending (December 2023 - September 2024)

High School Matriculation Result

- Accomplished high marks with distinctions in Mathematics, Chemistry, Physics and Biology

Languages:

- English (Intermediate)
- Japanese (Currently learning)

Certifications

Spring Framework Certificate
(Java Developer Class)

February 2024

Topics covered :

- Spring Container
- AOP
- Spring Data
- Spring Boot
- Spring MVC
- Spring Security
- Spring REST

Other technologies

Git, MySQL, Html, CSS, JavaScript, Bootstrap (Intermediate)
React , Docker (Basic)

Hobbies and Interests

- Chess: Enjoy strategic gameplay and problem-solving, with a current rating of 1700 on Chess.com.
- Guitar: Passionate about playing and learning new songs across various genres.
- Fitness: Committed to regular workouts for physical health and well-being.
- Technology: Keen interest in emerging technologies and their applications.
- Japanese Language: Currently learning Japanese to enhance communication skills and cultural understanding.
